Watch for Survivor Packets being sold in the second quarter. You may also purchase insurance for an additional \$5. Sealed envelopes will be opened at random and if the color you have held up in the air is drawn from the envelope you’re out. If it’s not your color you’re still in. ## The Walter Family

Health issues & constant medical expenses have been an ongoing issue with this young family. Amanda has dealt with kidney disease for most of their married life, & was recently diagnosed with Multiple Sclerosis. She has to be seen by her doctor three to four days per week, & has many visits with specialists. Makayla now deals with the nerve disorder NF, which attacks the nervous system in a variety of ways. She currently has seven tumors on her spine caused by this disease. She has to see her doctor weekly, & specialists on a monthly basis in Yakima. Brandon developed an infection in his upper jaw early in 2008, which spread to a number of his teeth and his brain. This required surgeries, in which a tumor was found & removed, as well as six teeth. He will face ongoing treatment for bone infection, & eventual reconstructive surgery to repair his jaw. Needless to say medical bills continue to add up. May God bless each of them.
