# ***Tana and Rick Slawson***

The Year 2015 didn't not start out nice for the Slawson family. Rick came home from work on January 13th with a torn ACL and Meniscus in his left Knee. He has been laid off since that time and is expected to go back to work in October.

Then on January 17th Tana had her first seizure in Spokane while at her daughter's house. She was released from the hospital, but was advised to seek a doctor. The next week Tana made an appointment with a doctor and was advised to get an MRI of her head. Tana went to see a neurologist and was told she had a brain tumor on her left temple lobe. Tana was sent to OHSU for an

additional MRI and they determined the tumor was about the size of golf ball. The size and the shape of the tumor didn't really alarm them of being a typical cancer shape tumor .

On March 5th Tana had another MRI to see how close the tumor was sitting to the speech and memory part of her brain. On March 13 Tana was told that she could wait about a year if it was not cancer or fast growing. Tana asked them to remove it the sooner the better and surgery for was set for May 4th. Tana had her second seizure on May 1st just a few days before the surgery.

Tana went in for her post operation follow up appointment about a week after her surgery and was informed that she had a grade III Anaplastic Astrocytoma. She was also told that the tumor had fingerlings and they couldn't remove all of it.

Tana started undergoing radiation and chemotherapy treatments on June 15th. Tana finished the radiation treatments on August 3rd. Her chemotherapy was put on hold due to her platelets being too low. Once her platelet levels are brought back up, she will continue with the treatment.

On August 6th, Tana's father passed away unexpectedly. His funeral services were

held Saturday August 15th.

Tana will have another MRI on August 28th to see the results of her treatment thus far.

Tana was born in Goldendale and raised in Glenwood, Washington. In 1993 Tana married Rick Slawson. Together they have lived in Goldendale where they raised their two children, Carly, 21 , and Richard, 19. Tana has ties to The Dalles from working at Fred Meyers for the last 4 1/2 years. She has spent many years sharing her love of sports and improving the lives of children. Tana has coached volleyball at Goldendale Middle School for 6 years, JV softball at Goldendale High School for 2 years, and basketball at Glenwood High School for 3 years.

# ***Heidi, Blake, Lila May and Mia Hall***

Three years ago in September 2012 our daughter Lila May Schow was diagnosed with a really rare form of child hood cancer called Neuroblastoma. It's a rare but extremely aggressive cancer that affects small kids from the age of two to seven. Unfortunately for Lila, she fell into that category. As her parents, we were devastated and left scared and confused on what the future would hold. We started treatment at OHSU Doernbecher children's hospital in Portland Oregon. The treatment at OHSU was very long and hard on Lila. Towards the end of the treatment plan she had to have a bone marrow transplant. In November of 2013, after well over a year of treatment and 3 surgeries, Lila was declared NED meaning there was no sign of cancer left in her body!! This was

the best Christmas present we could ask for and we thought we had it beat!

Sadly in February of 2014, Lila relapsed and once again our lives we're tossed in the air and left us searching for answers. After OHSU told us that there was nothing more we could do, we put the word out on social media that we needed more options. The place everyone was talking about was Memorial Sloan Kettering in New York City so we packed up and traveled to New York City for treatment and more surgeries. Every three to four weeks we would fly from our home in Hood River to New York City. To our great relief Memorial Sloan Kettering helped us fight the cancer and again our daughter was declared NED!! We were overjoyed and so proud of Lila.

Unfortunately our luck and celebration didn't last long, a month after she was cleared she relapsed for the third time. However, this time it was up in her head around her acoustic canal causing the left side of her face to lose all function. At that time, Memorial Sloan Kettering said there were no more treatment options and to prepare for quality of life.

This did not sit well with us, and as her parents we were not ready to stop fighting. We knew Lila May had more life to live. We got on-line and contacted a very small hospital in Grand Rapids Michigan called Helen Devos and they gave us hope. For the last seven months we have been traveling back and forth to Michigan for several new break through treatments.

Sadly these new treatments did not work for our Lila. We found out in July that her body was not responding to the treatment and the aggressiveness of the cancer was taking over her body. Our doctors in Michigan said that if her counts didn't come back up to a stable level there would be no options. So we sat and we waited... knowing that time was not on our side.

In the mean time we make sure Lila has as much fun as possible and as many mile stones as possible. Things like school and birthdays and proms and even a marriage proposal. Things she may not be able to do.

**Lila May Schow**

**07/31/2010 – 09/12/2015**

**Although Your Work On Earth Is Done  
Your Life In Heaven Has Just Begun.  
Your Life Was Not Easy, By Choice Or Fate.  
Yet You Smiled Through It All,  
And You Danced Till The End.  
You Inspired So Many.  
With Your Smile And Your Grace.
